

LEARN FUNCTIONAL SKILLS WITH GMB TRADE UNION!

FUNCTIONAL SKILLS ENGLISH AND FUNCTIONAL SKILLS MATHS (LEVEL 1 & 2)

GMB Trade Union are working in partnership with a training provider that delivers **Functional Skills English and Mathematics**. Why should you enrol on this course?

If you are looking to **get ahead at work**, **get a promotion** or apply to do some **further learning at college**, then this might be the course for you! So, what will you be learning?

ENGLISH: Work on speaking, listening, reading and writing

MATHS: Understanding problems, applying maths to find solutions and draw conclusions

You will undertake practical assessments throughout the course and pass online exams. **You will not be required to attend College** - all learning is online, and via email and telephone contact with tutors - but you'll need to go to a City & Guilds centre to complete your online exam. Don't worry, we'll arrange one near where you live or work!

Does this sound like something that might interest you?

To find out more about funding, eligibility and how to enrol, please contact:
